lesson 4 newton's laws the physics classroom - sometimes stated as newton's third law of motion: for every action, there is an equal and opposite reaction. a force is a push or a pull and it always results from an interaction between two objects. these forces always come in pairs. 1. for each stated action force, identify the reaction force. bat hits ball. man pushes car. bus hits bug. **inertia and mass - physicsclassroom** - newton's laws © the physics classroom, 2009 page 4 5. these graphs describe the motion of carson busses at various times during his trip to school. **newton's third law - physicsclassroom** - 4. shirley bored sits in her seat in the english classroom. the earth pulls down on shirley's body with a gravitational force of 600 n. describe the reaction force of the force of gravity acting upon shirley. 5. use newton's third law (law of action-reaction) and newton's second law (law of acceleration: $a = \frac{F}{m}$ • **mass and weight - mr. hoffman's physics world** - 7. what is the mass and weight of a 10-kg object on earth? mass = 10 kg weight = 98 n (mass multiplied by 9.8) what is the mass and weight of a 10-kg object on the moon where the force of gravity is 1/6-th that of the earth's? mass = 10 kg weight = 16 n (one-sixth of 98 n) 8. **physics name: newton's third law for each situation below ...** - newton's laws 3. true or false: as you sit in your seat in the physics classroom, the earth pulls down upon your body with a gravitational force; the reaction force is the chair pushing upwards on your body with an equal magnitude. if false, correct the answer.) is yo arkks oji) bvk ko shirley bored sits in her seat in the english classroom ... **3.1 - newton's laws of force - mrehaus - home** - newton's second law • newton's 2nd law says that a body acted upon by a net external force will accelerate. • the acceleration is proportional to the net force and inversely proportional to the mass. it is in the direction of the net force. • $\Sigma F = ma$ (the unit of force = newton = kg. m) s **chapter 5: newton's laws of motion - iona physics** - chapter 5: newton's laws of motion. 2 first law of motion inertia an object continues in a state of rest, or of motion in a straight line at constant speed, unless it is ... newton's third law of motion: 15 the cannon just fired a ball. which of the following is true? a) the force the cannon exerted on the ball was larger than the force the ... © **the physics classroom, 2009 page 2** - newton's laws © the physics classroom, 2009 page 4 . 5. these graphs describe the motion of carson busses at various times during his trip to school.
